FP7 GMES related projects with Swedish participation

Activity 9.1 / project with swedish participation

Development of upgraded capabilities for existing GMES Fast-Track Services and related (pre)operational services

- GEOLAND2
- MYOCEAN
- SAFER

Developing pre-operational GMES pilot services in new application fields

- MACC

Monitoring of climate change issues (extending core service activities)

- EURO4M

Summary

- ✓ Sweden is open to different kinds of collaboration within FP7.
- ✓ Much of the team formation has been based on established networks within Europe, partly coming from collaborations within ESA.
- ✓ To obtain detailed knowledge of main players within Sweden, contact NCPs.
- ✓ For the team formation contact possible team members in Sweden directly.
